ENGINEERING PROCUREMENT AND CONSTRUCTION

OIL & GAS

Majees and their JV partners execute EPC & DBOOM projects in Oil & Gas sector including storage facilities, Chemical EOR & Produced Water Treatment. We also provide High End Process Engineering Solutions, Electrical & Instrumentation Solutions, Startup, Operation & Maintenance Services

PRODUCTS

PROCESS PACKAGES: Gas Sweetening Units, Refrigeration packages, Dew Point Control package, Gas Dehydration Unit, Fuel Gas Treatment Skids, Degasser, Heater Treaters, Desalters, Flare Gas Recovery Systems

PROCESS HEAT EQUIPMENT: Hot Oil Systems, Steam Boilers, Air Cooled Heat Exchangers (ACHE), Shell & Tube Heat Exchangers, Electrical Heaters & Heat Tracing

PROCESS TRANSPORTATION EQUIPMENT: API 610 Centrifugal Pumps, ANSI/ISO Centrifugal Pumps, Vacuum Pumping SystemsGas Compression Systems, Ball, Check, Globe & Butterfly Valves, Corrosion Resistant Alloy (Incolloy/ DSS/SDSS/ SS), Pipes & Fittings, GRE/GRP Pipes, Fittings & Flanges

WATER, WASTEWATER & PRODUCED WATER TREATMENT: RO Water treatment plants, Skim Tanks, Hydro cyclone Packages, Induced Gas Floatation, Nutshell filters

PROJECTS

- SITE STORAGE TANKS
- FLOW LINES
- PIPELINES
- DBOOM
- PLANT EQUIPMENT ERECTION
- DISMANTLING & PACKING

SERVICES

- STORAGE TANK MAINTENANCE
- OVERHAULING OF WATER BATH HEATER
- HYDRO TESTING
- MACHINING WORKS
- HIGH END PROCESS ENGINEERING INVOLVING SOUR GAS PROCESSING
- ELECTRICAL AND INSTRUMENTATION INCLUDING CONSTRUCTION
- START-UP, OPERATION AND MAINTENANCE

FABRICATION & CONSTRUCTION

We operate a state-of-the-art manufacturing facility in Sohar Industrial Area, Oman, certified under ASME U & S and NB R standards. This business segment specializes in construction, encompassing Civil, Mechanical, Electrical, and Instrumentation (CMEI) disciplines. Additionally, we excel in piping fabrication, working with specialized materials such as Inconel, Duplex Stainless Steel (DSS), and Super Duplex Stainless Steel (SDSS). Our expertise also extends to the production of pressure vessels, process skids, structural fabrication, and the prefabrication of storage tanks.

Project References

AP & LP KNOCKOUT DRUMS

Engineering procurement & fabrication of AP & LP knockout drums

EPC OF SULFURIC ACID STORAGE TANK

Engineering procurement & fabrication of sulfuric acid storage tank

PROCESS PIPING

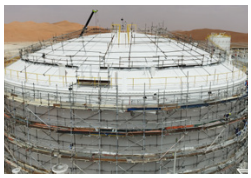
Engineering procurement fabrication and erection of process piping for New Jotun Paint factory

FABRICATION OF FLARE STACKS

Fabrication of flare stacks and associated platforms ladders, instrumentation skids.

SITE CONSTRUCTION AT AL BARAKAH

Dismantling and demo-bilisation and subsequent installation of Al Barakah Gas Compression Rental Station Project



STORAGE TANKS

Site construction of storage tanks – Crude oil tank, Treated produced water tank, gas floatation tank and Water Storage

OUR CAPABILITIES

- MODULAR PROCESS PACKAGES – FABRICATION AND COMPLETE ASSEMBLING
- PRESSURE VESSELS, COLUMNS & HEAT EXCHANGERS AND TANKS
- REPAIR OF HEAT EXCHANGERS AND PRESSURE VESSELS
- SHOP FABRICATED TANKS
- STRUCTURAL FABRICATION (PIPE SUPPORT, PIPE RACKS, SILO'S AND TANKS)
- FLARE STACKS, DUCTS AND CHIMNEYS
